

**MLDUARTE TRADE & LINGUIST TECHNOLOGY, Lda.** is a consulting services company focused on international business development and the distribution of products, solutions, and services related to various industrial sectors.

**MLDUARTE** is headquartered in Portugal and has offices in Spain, Turkey, and Brazil. The company has staff throughout the EMEA region, South America, and Asia, offering a variety of products from well-known brands.

**HMK** is a company that designs and manufactures innovative and safe products with manufacturing studies and R&D for the metal products, road safety, and solar energy sectors.

It stands out as one of the world's leading manufacturing companies, recognized for the high quality of its customer-focused products and services, timely deliveries, and comprehensive support before and after sales. Currently, HMK exports its products to various countries worldwide, leading the market in Europe.

# Products

HMK Demirçelik offers the following products:

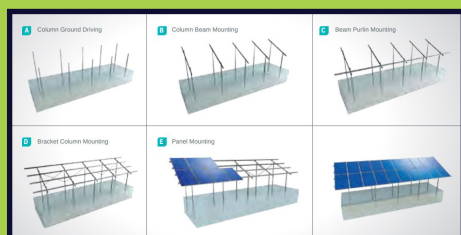

- Connection equipment
- **Steel mounting systems**
- Solar roof hooks
- Safety equipment for working on roofs
- Solar carport

Steel mounting systems are an ideal solution for medium and large-scale photovoltaic projects on flat or sloped terrain.

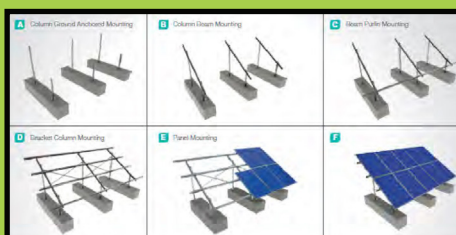

They offer excellent corrosion resistance through hot-dip galvanized coating and feature a high-level engineering design that provides advantages in both installation and cost.

## Advantages:

- Time savings during installation
- Cost savings in installation
- Flexible solutions for different types of terrain
- Suitable solutions for installing junction boxes and inverters
- Custom design solutions for the client
- Customer-oriented engineering solutions

Steel Ground Mounting System with 2 Vertical Panels

Steel Mounting System Anchored on Concrete Base with 2 Vertical Panels
